The Commission de Surveillance du Secteur Financier ("CSSF") is responsible for supervising the Product and BNPP AM Luxembourg.
Date of production of the KID: 01/01/2023

## WHAT IS THIS PRODUCT?

### Type

This Product is an undertaking for collective investment in transferable securities (UCITS) qualfying as an exchange-traded fund (ETF). It is a sub-fund of BNP PARIBAS EASY, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

### Term

This Product has no maturity date.
BNPP AM Luxembourg is not entitled to terminate the Product unilaterally. The board of directors of the SICAV has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

### Objectives

The Fund is an index-tracking passively managed fund.
The Fund seeks to replicate (with a maximum tracking error* of 1%) the performance of the ECPI Circular Economy Leaders Equity (NR) index (the Index ) by investing in shares issued by companies included in the Index, respecting the Index's weightings (full replication), or in a sample of shares issued by companies included in the index (optimized replication).
When investing in a sample of shares, the Fund's tracking error may be higher.
The Index is composed of companies related to the opportunities offered by the Circular Economy with positive Environmental, Social and Corporate Governance (ESG) ratings (such as circular supplies, product life extension, recycling, human capital, corporate governance, etc.) and based on their efforts to reduce their exposure to coal and unconventional fossil fuels. As a result, companies involved in sectors with a potentially high negative ESG impact, those subject to significant violations of the UN Global Compact principles and those involved in severe ESG-related controversies are excluded from the Index.
The type of approach implemented here is thematic (the index is composed of companies that provide products and services proving concrete solutions to specific environmental and/or social challenges, seeking to benefit from future growth anticipated in these areas while contributing capital to the transition towards a low-carbon, inclusive economy). The extra-financial strategy of the Index may comprise methodological limitations such as the risk related to ESG investment or the Index rebalancing. Further information on the Index, its composition, calculation and rules for monitoring and periodic rebalancing, as well as information on the general methodology common to all ECPI indices, can be found at www.ecpigroup.com.
*The tracking error is a risk indicator that measures how closely a fund tracks the performance of its reference index.
Incomes are systematically reinvested.
Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

### Intended retail investors

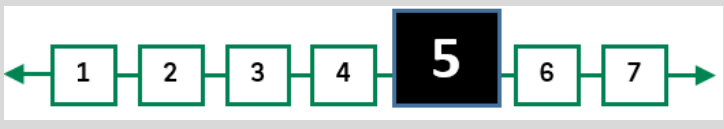
This Product is designed for retail investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least 5 years.

### Practical Information

- Depositary: BNP PARIBAS, Luxembourg Branch
- This key information document is prepared for the aforementioned share class and describes a sub-fund of BNP PARIBAS EASY. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the SICAV. Under the 2010 Law, there is segregated liability between sub-funds, meaning that the assets of the sub-fund will not be available to meet a claim of a creditor or another third-party made against another sub-fund.
- Further information about the Product including the latest prospectus, key information document, net asset values, latest published prices of share(s), periodical report, investment description, may be obtained free of cost, in English, from BNPP AM Luxembourg or online at https://www.bnpparibas-am.com.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### Risk Indicator



Lower risk — Higher risk

The risk indicator assumes you keep the Product for 5 years.

You may not be able to sell your Product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this Product as 5 out of 7, which is a medium-high risk class. The risk category is justified by the investment mainly in stocks and shares, the value of which can fluctuate considerably. These fluctuations are often amplified in the short term.
**Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**
Other risk materially relevant to the Product not included in the summary risk indicator:
- Operational and custody risk

For additional details regarding the risks, please refer to the prospectus.
This Product does not include any protection from future market performance so you could lose some or all of your investment.
If we are not able to pay you what is owed, you could lose your entire investment.

### Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable,moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future.

| Recommended holding period: 5 years<br>Example Investment: EUR 10,000 | | If you exit after 1 year | If you exit after 5 years |
|---|---|---|---|
| *Scenarios* | | | |
| **Minimum** | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| **Stress** | What you might get back after costs<br>Average return each year | 5,051.87 EUR<br>-49.48% | 1,623.52 EUR<br>-30.48% |
| **Unfavourable** | What you might get back after costs<br>Average return each year | 8,692.23 EUR<br>-13.08% | 9,570.63 EUR<br>-0.87% |
| **Moderate** | What you might get back after costs<br>Average return each year | 10,448.37 EUR<br>4.48% | 16,583.17 EUR<br>10.65% |
| **Favourable** | What you might get back after costs<br>Average return each year | 14,029.12 EUR<br>40.29% | 19,722.45 EUR<br>14.55% |

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.
The stress scenario shows what you might get back in extreme market circumstances.
This type of scenario occurred for an investment using a benchmark between 2012 and 2022.

## WHAT HAPPENS IF BNPP AM LUXEMBOURG IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM Luxembourg. In the event BNPP AM Luxembourg would default, the assets of the Product/SICAV, held by a depositary, would not be affected by this default.
In case of default of the depositary, the risk of financial loss of the Product/SICAV is mitigated by the legal segregation of the assets of the depositary from those of the Product/SICAV.

## WHAT ARE THE COSTS?

The person advising on or selling you this Product may cost you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If this Product is used as an underlying of an insurance policy or a capitalization policy, the costs presented do not include any costs related to such policies.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- in the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

| | If you exit after 1 year | If you exit after 5 years |
|---|---|---|
| **Annual Total Cost** | 623.24 EUR | 232.39 EUR |
| **Annual Cost Impact (*)** | 6.24% | 1.76% |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14.09% before costs and 12.34% after costs.

### Composition of costs

| One-off entry or exit costs | If you exit after 1 year | |
|---|---|---|
| **Entry costs** | The entry costs shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser. | 300 EUR |
| **Exit costs** | The exit costs shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser. | 291 EUR |

| Recurring costs levied annually | | |
|---|---|---|
| **Management costs and other administrative and operating costs** | The amount is based on past expenses calculated on 30/06/2022. | 29.1 EUR |
| **Transaction costs** | This amount represents the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell. | 3.14 EUR |
| **Incidental costs taken under specific conditions** | | |
| **Performance fees** | There is no performance fee for this Product. | 0 EUR |

Conversions not allowed.

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period ("RHP"): 5 years.
The RHP has been defined and based on the risk and reward profile of the Product.
Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.
Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product.
In addition, the investor's subscription or redemption order may be subject to an anti-dilution levy (maximum 0.2% for subscription and maximum 0.1% for redemption) paid to the sub-fund in order to cover transaction costs.

## HOW CAN I COMPLAIN?

For any claim, you are invited to contact your usual relationship manager that advised you on the Product. You can also contact BNPP AM Luxembourg, as described on its website www.bnpparibas-am.lu (Footnote 'Complaints management policy'), by writing to BNPP AM Luxembourg - Client Services - 10, rue Edward Steichen L-2540 Luxembourg.
