What is this product?

Type: Shares of a Sub-Fund of Amundi Index Solutions, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: This Sub-Fund matures on 31/12/2028. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: This Sub-Fund is passively managed.

The objective of this Sub-Fund is to track the performance of FTSE Euro Broad Government 2028 Maturity Index (the "**Index**"), and to minimize the tracking error between the net asset value of the Sub-Fund and the performance of the Index.

The anticipated level of tracking error under normal market conditions is indicated in the Sub-Fund's prospectus.

The Index is a Total Return Index: the coupons paid by the Index constituents are included in the index return.

FTSE Euro Broad Government 2028 Maturity Index is a bond index representative of fixed rate, euro-denominated government bonds issued by Eurozone member countries and maturing in 2028. The bonds comprised within the Index will gradually mature through the year 2028 and interest and principal payments received from matured bonds will be reinvested in government securities issued by France and Germany (Treasury bills) with 1 to 6 months remaining time to maturity as of each monthly rebalancing date. It is important for investors to take this into consideration before making any investment in the Sub-Fund in the final year and in the period approaching the final year.

The Sub-Fund has a fixed maturity on 31 December 2028. On the maturity date, upon decision of the Board of Directors, the shareholders of shares in the sub-fund may have their shares redeemed without further notice or shareholder approval.

The Sub-Fund does not seek to return any predetermined amount at maturity or in periodic distributions.

More information about the composition of the Index and its operating rules are available in the prospectus and at: www.ftse.com
The Index value is available via Bloomberg (CFIIEB28).

The exposure to the Index will be achieved through a direct replication, mainly by making direct investments in transferable securities and/or other eligible assets representing the Index constituents. The sub-fund may implement a sampled replication model in order to track the performance of the Index and it is therefore not expected that the sub-fund will hold each and every underlying component of the Index at all times or hold them in the same proportion as their weightings in the Index. The sub-fund may also hold some securities which are not underlying components of the Index.

The Investment Manager will be able to use derivatives in order to deal with inflows and outflows and also if it allows a better exposition to an Index constituent. In order to generate additional income to offset its costs, the Sub-Fund may also enter into securities lending operations.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

Redemption and Dealing: The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges. Only authorised participants (e.g., selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the Amundi Index Solutions prospectus.

Distribution policy: The Fund's amounts available for distribution (if any) will be distributed.

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Luxembourg S.A. at 5, allée Scheffer 2520 Luxembourg, Luxembourg.
The Net Asset Value of the Sub-Fund is available on www.amundi.lu.

Depositary: CACEIS Bank, Luxembourg Branch.

What are the risks and what could I get in return?

RISK INDICATOR

Lower Risk — Higher Risk

The risk indicator assumes you keep the product until 31/12/2028.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Amundi Index Solutions prospectus.

What happens if Amundi Luxembourg S.A. is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of Amundi Index Solutions. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.
