Objectives

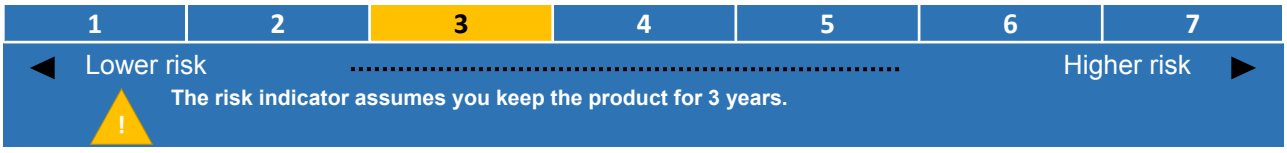

The fund is actively managed. The fund is not managed in reference to a benchmark. INVESTMENT OBJECTIVE: The objective of the investment policy is to achieve a positive mid- to long-term investment performance through exposure to a balanced and diversified portfolio comprised primarily of exchange-traded funds (ETFs) linked to equities, fixed income and/or commodities and issued by Xtrackers, Xtrackers II and Xtrackers (IE) plc; the fund may also invest from time to time directly in transferable securities, money market instruments or other collective investment schemes (Invested Assets). The composition of the Invested Assets will be based on the primary aim of creating a total return strategy which seeks to benefit from capital appreciation and income generated by the exposures of the Invested Assets, while limiting volatility. INVESTMENT POLICY: In seeking to achieve the objective, the investment manager, DWS Investments GmbH, will provide the composition of the Invested Assets to the sub-portfolio manager, DWS Investments UK Limited, on a scheduled quarterly basis (each a quarterly asset selection date) and at such other times as the investment manager may in its discretion determine, based on which the sub-portfolio manager will perform the day-to-day management of the portfolio. Such proposed composition is subject to the following weighting restrictions, as at each quarterly asset selection date: (i) the weighting of the ETFs that have equities as an asset class can be between 15% and 30%, (ii) the weighting of the ETFs that have fixed income as an asset class can be between 60% and 85%, and (iii) the weighting of the ETFs that have commodities as an asset class can be up to 10%. The fund may also engage in secured lending of its investments to certain eligible third parties to generate additional income to offset the costs of the fund. FURTHER INFORMATION: Certain information (including the latest share prices of the fund, indicative net asset values and full disclosure on the composition of the fund's portfolio) is available on your local DWS website or at www.Xtrackers.com. The return of the product is reflected by the daily calculated net asset value per unit and the distribution amount if applicable. The currency of the fund is EUR. The fund distributes semi-annually. To the extent the fund undertakes securities lending to generate revenue, the fund will ultimately be allocated 82% of the associated revenue, the securities lending agent, which will be a Deutsche Bank entity, will be allocated 9% and the remaining 9% will be allocated to the DWS entity which monitors such activities, as set out in the sales prospectus and/or supplement, for its own coordination and oversight tasks.
