KEY INFORMATION DOCUMENT

What is this product?

Type: Shares of a Sub-Fund of Amundi Index Solutions, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: This Sub-Fund is passively managed.

The objective of the Sub-Fund is to track the performance of MSCI ACWI IMI Robotics & AI ESG Filtered Net Total Return Index (the "Index"), and to minimize the tracking error between the net asset value of the sub-fund and the performance of the Index. The sub-fund aims to achieve a level of tracking error of the Sub-Fund and its index that will not normally exceed 1%.

The Index is a Net Total Return Index : dividends net of tax paid by the index constituents are included in the Index return.

The Index is an equity index representative of the performance of companies associated with the increased adoption and utilization of artificial intelligence, robots and automation while excluding those involved in certain controversial businesses or with relatively low ESG controversies and ratings scores. It selects companies which are assessed to have high exposure to business activities such as:
- Robotics/ Artificial Intelligence,
- IoT/ Smart Homes,
- Cloud Computing,
- Cybersecurity,
- Medical Robotics,
- Social Media Automation,
- Vehicle Automation.

More information about the composition of the index and its operating rules are available in the prospectus and at: msci.com
The Index value is available via Bloomberg (MXACIREF).

The ESG rating methodology is based on ESG key issues including but not limited to water stress, carbon emissions, labor management or business ethics. The Index uses a "Best-in-class" approach, i.e., bottom quartile companies by ESG industry adjusted rating are excluded from the theme universe. For further information in relation to the general and specific environmental, social and governance (ESG) objectives targeted by the Sub-Fund, please refer to the Transparency Code of the Sub-Fund available on https://www.amundietf.com.

The Sub-Fund will apply a Direct Replication methodology to get exposition to the Index, mainly by making direct investments in transferable securities and/or other eligible assets representing the Index constituents in a proportion extremely close to their proportion in the Index. The Investment Manager will be able to use derivatives in order to deal with inflows and outflows and also if it allows a better exposition to an Index constituent. In order to generate additional income to offset its costs, the Sub-Fund may also enter into securities lending operations.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period and who are prepared to take on a high level of risk to their original capital.

Redemption and Dealing: The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges. Only authorised participants (e.g., selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the Amundi Index Solutions prospectus.

Distribution policy: As this is a non-distributing share class, investment income is reinvested. the accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Luxembourg S.A. at 5, allée Scheffer 2520 Luxembourg, Luxembourg.
The Net Asset Value of the Sub-Fund is available on www.amundi.lu.

Depositary: CACEIS Bank, Luxembourg Branch.

What are the risks and what could I get in return?

RISK INDICATOR

Lower Risk — Higher Risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.
Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Amundi Index Solutions prospectus.

What happens if Amundi Luxembourg S.A. is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of Amundi Index Solutions. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.
The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.
