Key Information Document

What is this product?

Type: Shares of a Sub-Fund of MULTI UNITS FRANCE, a SICAV.

Term: The Sub-Fund is open-ended.

AMF Classification ("Autorité des Marchés Financiers"): French shares

Objectives: The fund is a passively managed, index-based UCITS.
The objective of the Fund management is to replicate, both upwards and downwards, the performance of the CAC 40 Gross Total Return Index (gross dividends reinvested) (the "Benchmark Index"), denominated in euro (EUR) and representative of the shares of the 40 largest companies listed on Euronext Paris while keeping the tracking error between the performance of the Fund and that of the Benchmark Index to a minimum..
The expected level of the tracking error under normal market conditions is indicated in the Fund's prospectus.
The Euronext website (www.euronext.com) provides more detailed information on Euronext indices.
The Fund aims to achieve its objective by means of direct replication, namely by primarily investing in an asset pool formed of securities comprising the Benchmark Indicator and/or the financial instruments representative of all or part of the securities comprising the Benchmark Indicator.
In order to optimise the replication of the Benchmark Index, the Fund may use a sampling technique in addition to collateralised temporary sales of securities.
Any use of these techniques is indicated on the website amundietf.com.
The updated composition of the securities portfolio held by the Fund is mentioned on the website amundietf.com.
In addition, the indicative net asset value appears on the Reuters and Bloomberg pages of the Fund and may also be mentioned on the Fund's stock exchange websites.
The Fund is eligible for the French Equity Savings Plan (Plan d'Epargne en Actions français, or PEA) and therefore invests a minimum of 75% of its assets in European Union company shares.

Intended retail investors: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds, seeking to increase the value of their investment and to receive income over the recommended holding period and who are prepared to take on a high level of risk to their original capital.

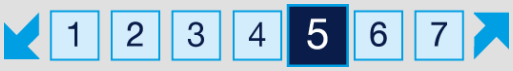

Redemption and transaction: Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the MULTI UNITS FRANCE prospectus.

More information: Further information regarding the Sub-Fund, including the prospectus and financial reports, is available free of charge on request from: Amundi Asset Management - 91-93 boulevard Pasteur, 75015 Paris, France.
The net asset value of this Sub-Fund is available at www.amundi.fr.

Depositary: SOCIETE GENERALE.

What are the risks and what could I get in return?

RISK INDICATOR

Lowest risk Highest risk

The risk indicator assumes you keep the product for five years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.
Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the MULTI UNITS FRANCE prospectus.

PERFORMANCE SCENARIOS

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performance of the Sub-Fund over the past five years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

This type of scenario occurred for an investment using a suitable proxy.

What happens if Amundi Asset Management is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of MULTI UNITS FRANCE. The assets and liabilities of the Sub-Fund are segregated from those of other funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.
The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.
