KEY INFORMATION DOCUMENT

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Name of Product:	VanEck AEX UCITS ETF ("Product"/"PRIIP")
ISIN:	NL0009272749
PRIIP Manufacturer:	VanEck Asset Management B.V. ("Manufacturer") Website for PRIIP manufacturer: www.vaneck.com Call: +31 20 719 5100 for more information.
Competent Authority:	The Manufacturer is regulated by the Dutch Authority for the Financial Markets ("AFM"). The PRIIP is authorised in The Netherlands and regulated by the Authority for the Financial Markets (AFM).
Date of production of the KID:	05 April 2024

What is this Product?

Type:

The Product is a passively managed UCITS ETF of VanEck ETFs N.V., an umbrella fund structure comprising different sub-funds. Under Dutch law, VanEck ETFs N.V. has segregated liability between its sub-funds. VanEck ETFs N.V. does currently not offer an exchange of shares for shares of another sub-fund. The shares are admitted for trading on various stock exchanges and can be traded on the secondary market. The price of the shares offered on the secondary market may deviate from the net asset value of the shares.

Term:

No fixed term. We are entitled to terminate the management of the Product by giving at least one month notice to investors as published at least on our website.

Objective:

The VanEck AEX UCITS ETF is an exchange traded fund (ETF) which seeks to follow the AEX® Index (gross total return index) as closely as possible.
The Product is passively managed and invests in the underlying (physical) securities that make up the index and does not lend the underlying securities out to third parties.
The reference index measures the performance of securities issued by companies listed in the Netherlands which have large market capitalisation. The market capitalisation is the share price of the company multiplied by the number of shares issued. The index currently consists of the 25 biggest companies listed on Euronext Amsterdam.
Income from the Product's investments is paid out as dividend. There is the possibility of dividend 4 times per year, but the height of the dividend to be paid out is also considered. It may be the case that the income from the dividend is relatively low in a particular quarter, which means that from a cost perspective, it makes more sense to keep the income in the Product until the next payment opportunity.
The Product may not invest more than 10% of its Net Asset Value in open-ended collective investment schemes.
The Manufacturer will regularly monitor the Product's tracking accuracy. The annualised tracking error envisaged is not anticipated to exceed 0.5% under normal market conditions.

Dealing Frequency: You may purchase and redeem shares in this Product on a daily basis and in accordance with the relevant notice period.
• Product's base currency: Euro
• Distribution policy: Income distributed
The Depositary of VanEck ETFs N.V. is State Street Bank International GmbH, Amsterdam branch.
The return of the Product is directly related to the return of the underlying assets minus the costs associated with the Product. If the performance of the underlying assets decreases, the performance of the Product will also decrease. There is no capital protection against Market Risk.

Intended Retail Investor:

This Product is intended for all kinds of investors who are looking for capital growth and/or optimization and have an investment horizon which is at least equal to the recommended holding period shown below. Only those investors who have the ability to make an informed decision based on sufficient knowledge and understanding of the Product and the market and the ability to bear a loss up to a total loss of their investment should consider investing in the Product. The Product does not offer a capital guarantee.

What are the risks and what could I get in return?

The risk indicator assumes you keep the Product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you. We have classified this Product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level and poor market conditions could impact the capacity of VanEck ETFs N.V. to pay you. This Product does not include any protection from future market performance so you could lose some or all of your investment. The following risk may be materially relevant to the Product but may not be adequately captured by the summary risk indicator and may cause additional loss: Concentration Risk as further described in the Prospectus.

Performance scenarios and the assumptions made to produce them:

What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 years. Example Investment: EUR 10,000 Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	***There is no minimum guaranteed return. You could lose some or all of your investment.***		
Stress	***What you might get back after costs***	EUR 3,050	EUR 2,960
	Average return each year	-69.52 %	-21.59 %
Unfavourable	***What you might get back after costs***	EUR 7,700	EUR 9,190
	Average return each year	-23.04 %	-1.68 %
Moderate	***What you might get back after costs***	EUR 10,880	EUR 15,520
	Average return each year	8.76 %	9.19 %
Favourable	***What you might get back after costs***	EUR 17,110	EUR 20,440
	Average return each year	71.07 %	15.38 %

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between March 2015 and March 2020. The moderate scenario occurred for an investment between October 2014 and October 2019. The favourable scenario occurred for an investment between November 2016 and November 2021. Your maximum loss would be that you will lose all your investment.

What happens if VanEck Asset Management B.V. is unable to pay out?

The assets of the Product are held in safekeeping by the Depositary and are separate assets to those of the Manufacturer. Therefore in the event of the insolvency of the Manufacturer, the Products assets will not be affected. In the event of the Depositary's insolvency, or someone acting on its behalf, the Product may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Product. The Depositary will also be liable to the Product and the investors for any loss arising from, among other things, its negligence or intentional failure properly to fulfil its obligations (subject to certain limitations). The Product's investments do not fall within the scope of any guarantee or compensation scheme.

What are the costs?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.
The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10 000 is invested

Cost over time		
	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 30	EUR 150
Annual cost impact (*)	0.3 %	0.3 %

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.4 % before costs and 9.1 % after costs. We may share part of the costs with the person selling you the Product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs		
	One-off costs upon entry or exit	If you exit after 1 year
Entry costs	We do not charge an entry fee.	EUR 0
Exit costs	We do not charge an exit fee.	EUR 0
	Ongoing costs taken each year	
Management fees and other administrative or operating costs	0.30 % of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 30
Transaction costs	0.00 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.	EUR 0
	Incidental costs taken under specific conditions	
Performance fees (and carried interest)	There is no performance fee for this Product.	EUR 0

How long should I hold it and can I take money out early?

Recommended holding period: **5 years**

This Product is suitable for medium to long-term investment. Shares in the Product can in principle be redeemed on each dealing day. There are no costs or charges for such a transaction. The Manufacturer may suspend redemption if exceptional circumstances make this appear necessary taking into account the interests of the investors as outlined in the Prospectus. Investors will be able to buy and sell the Product on exchange.

How can I complain?

You may send any kind of complaints about the Product or the conduct of the Manufacturer to us via email to **complaints-europe@vaneck.com** or via letter to either VanEck (Europe) GmbH, Attn. Compliance/Complaints Handling, Kreuznacher Str. 30 60486 Frankfurt/Main, Germany or VanEck Asset Management B.V., Barbara Strozzilaan 310 1083 HN Amsterdam, Netherlands.
For further information please see Complaints Handling Procedure. In case of complaints about any advice regarding the Product, and related to the acquisition of the Product, please directly contact the person who sold the Product to you or advised you to acquire the Product.
